STUDENT SCORE LIST

Institution : BINUS Bandung

Academic Career : Undergraduate (Bandung)

Campus : Binus Bandung

Term : 2019, Even Semester

Course : MGMT6289 - Applied Business Statistics

Class : LE02

Note : The Student who are highlighted in red background will get zero (0) points because of their ineligibility to take the exam due to Absence during Exam Period, Cheating, and any kind of Violation. For student who are sick during the exam period, the score will be revised after the Make-Up Exam Period.

Applied Business Statistics

Applied Business Statistic is a course comprises of basic knowledge of data and statistic, collect data, process data using various statistical method, present data using tables/graphs, and analyse and give conclusions on the population based on research results. After completing this course, student will be able to know: how to extract meaningful information from piles of raw data, how to make inference about the nature of population based on observation of a sample taken from that population; how to predict the rates of occurrences of random event; how to understand and interpret statistical calculations performed by others.

COURSE INFORMATION

Learning Outcomes

- LO1** Explain the concept of statistic
- LO2** Analyze the statistical methods to solve economic and business problems
- LO3** Apply statistical concept properly in term of economic and business

Assessment Method

Teaching and Learning Strategies

Case Studies
Class discussion
